

GRAPHICS SYSTEMS ANNOUNCES USER CONFERENCE
October 6-7 at Lake Lawn Resort in Delavan, WI
Come to the Largest SolidWorks Conference in the Midwest!

Graphics Systems Corp. announces the Graphics Systems User Conference, a two-day event bringing in-depth training sessions, dozens of industry solutions, and hundreds of engineers under one roof. Focusing on SolidWorks solutions, the conference features presentations on solving engineering challenges, learning the latest tips and tricks, sharing industry trends, and discovering new technologies.

Attendees can select from five unique tracks encompassing SolidWorks, Simulation, Data Management, Technical Communication, and Management. Both engineers and managers will leave with ideas and solutions to implement into their everyday processes to improve their products and efficiency. To assure the most relevant and helpful topics are addressed, conference attendees have the unique ability to vote for the topics they want to see in the agenda using an interactive web forum.

Sterling Engineering, a conference sponsor, will have several featured presentations covering product design and overcoming challenges in technical hiring and recruitment. The conference also highlights companies successfully designing innovative products with SolidWorks solutions, giving valuable insight into how companies are succeeding and overcoming engineering challenges.

“This conference addresses the issues that are most important to engineers. The goal of this event is to help customers get the most out of the solutions they use every day,” said David Kasinkas, president and founder of Graphics Systems Corp. “Now is a great time for companies to start looking at new technologies and ideas that help solve the issues they face today. This conference will provide solutions to their issues.”

To register for the largest SolidWorks conference in the Midwest, visit www.gxsc.com/conference or call 800-454-2233 today!

About Graphics Systems Corporation

Graphics Systems assists companies in implementing new engineering technologies to streamline product development and *Design Better Products*. In business for over 20 years, Graphics Systems has assisted over 1,200 companies in WI, IL, and Upper MI to improve product design and engineering efficiency.

Headquartered in Milwaukee, WI with offices in Chicago, Madison, and Green Bay, Graphics Systems is the Midwest’s leading provider of SolidWorks 3D CAD solutions, support, and training. Pioneering the way in engineering efficiency, Graphics Systems also offers solutions for Product Data Management (PDM), Design Simulation (FEA), Engineering Automation, Product Documentation, and Rapid Prototyping.
