Graphics Systems celebrates 15th anniversary, acknowledges employees with at least 10 years service

Menomonee Falls, WI - January 13, 2005 – Leading SolidWorks reseller Graphics Systems Corporation (GXSC), headquartered in Menomonee Falls, WI is proud to announce its fifteenth year in business. GXSC is also pleased to recognize the following employees for 10 or more years of service:

- James Sorci, Applications Engineer (14 years)
- Jeffrey Setzer, Technical Services Manager (13 years)
- Mark Fischer, Sales Manager (13 years)
- John Setzer, Applications Engineer (10 years)

Graphics Systems Corporation was founded in December 1989 as a local supplier of Computer Aided Design solutions for business and industry in Wisconsin & Illinois. Our overriding concern was, and continues to be, providing clients with a solid, reliable, local source for comprehensive CAD solutions that effectively meet their needs.

GXSC's longevity demonstrates their commitment to enhancing the CAD community. "*Raising The Standard* is our motto because we want to raise the bar in terms of the capabilities possessed by our clients," Dave Kasinskas, President, explains. "We strive to help our customers grow by creating new classes, developing new product partnerships, hosting helpful events, and employing a dedicated staff. In turn, our customers help us grow and garner the success we have today."

Graphics Systems offers a full line of products, most of which revolve around Mechanical Solid Modeling. While SolidWorks is our flagship product, we also carry supplementary software for Finite Element Analysis, Kinematics/Dynamics, Simulation, Manufacturing/CAM, and PDM solutions. Other offerings include Rapid Prototyping systems from Dimension 3D Printing and reverse engineering hardware and software from RevWorks.

Graphics Systems training is geared toward increasing productivity and efficiency. While most vendors provide initial training, this often goes no further than the tutorial accompanying the software—leaving the full capabilities of the system untapped. Our trainers are certified instructors with several years of operational experience behind them. They have encountered and overcome the problems connected with day-to-day software use in your particular discipline.

Technical support is critical for a successful implementation. Recognizing this, Graphics Systems has invested heavily in resources to ensure lasting and successful partnerships with organizations. From telephone support to on-site services, Graphics Systems is devoted to meeting customers' needs.

About Graphics Systems Corporation

Graphics Systems is the Midwest's leading provider of CAD/CAM/CAE/PDM solutions for business and industry with over 15 years in business, and over 125 years of combined engineering experience. Major product offerings through Graphics Systems include SolidWorks, Cosmos FEA, PDMWorks, DBWorks, MoldWorks, Teksoft CAM, Dimension 3D printers and more. Graphics Systems has offices in Menomonee Falls, Madison, and Green Bay, WI in addition to Oakbrook Terrace, IL.
