Graphics Systems Corporation becomes Gold Level Sponsor of Regional VAR directory for SolidWorks Community website

Menomonee Falls, WI - January 3, 2005 – Leading SolidWorks reseller Graphics Systems Corporation (GXSC), headquartered in Menomonee Falls, WI is pleased to announce they have committed to a Gold Level Sponsorship of the Regional VAR directory on the SolidWorks Community Website (www.swcommunity.com) for the entire year of 2005. From this directory, subscribers to the SolidWorks Community will be able to find VARS in their area and see what products, services, and training they provide. Graphics Systems will represent the Wisconsin and Illinois areas with offices in Menomonee Falls, Madison, and Green Bay, WI and Oakbrook Terrace, IL. In addition to this listing, GXSC will feature articles, event listings, and job openings on the website.

GXSC's sponsorship demonstrates their dedication to enhancing SolidWorks users' knowledge. "*Raising The Standard* is our motto because we want to raise the bar in terms of the capabilities possessed by our clients," Dave Kasinskas, President, explains. "We strive to help our customers grow by creating new classes, developing new product partnerships, hosting helpful events, and employing a dedicated staff. We also look to support other outside resources as well, like the SolidWorks Community website, because it is another important source of useful information that can assist our customers."

Graphics Systems is the Midwest's leading provider of CAD/CAM/CAE/PDM solutions for business and industry with over 14 years in business, and over 125 years of combined engineering experience. Major product offerings through Graphics Systems include SolidWorks, Cosmos FEA, PDMWorks, DBWorks, MoldWorks, Teksoft CAM, Dimension 3D printers and more.

Graphics Systems training is geared toward increasing productivity and efficiency. While most vendors provide initial training, this often goes no further than the tutorial accompanying the software—leaving the full capabilities of the system untapped. GXSC's trainers are certified instructors with several years of operation experience behind them. They have encountered and overcome the problems connected with day-to-day software use in your particular discipline.

Technical support is critical for a successful implementation. Recognizing this, Graphics Systems has invested heavily in resources to ensure lasting and successful partnerships with organizations. From telephone support to on-site services, Graphics Systems is devoted to meeting customers' needs.
