### **Graphics Systems Corporation signs agreement to distribute Spicer Viewing Software**

**Menomonee Falls, WI – July 8, 2004-** Graphics Systems Corporation (GXSC), a leading SolidWorks reseller in the Midwest, is pleased to announce that it has signed an agreement with Spicer Corporation, a SolidWorks Solution Partner, to sell Spicer Universal Viewing solutions for ECM, PLM, and reprographics applications. Spicer Corporation will supply GXSC with Imagenation, Image a•X, and ViewCafé software to resell throughout Wisconsin and Illinois.

Spicer Universal Viewing solutions bring together information from virtually any source, helping customers, suppliers, engineers, and partners enhance their business processes and turn ideas into reality. Spicer's products are particularly useful for anyone who has the need to view 3D CAD data, including many native and neutral 3D formats, such as CATIA, Pro/E, SAT, SolidWorks, STEP, VDA-FS, VRML, STL, and IGES. Its software allows everyone in the design process to load, review, measure, and mark up CAD documents quickly. This capability will maximize the productivity of GXSC's customers by bridging the communications gap between enterprise content and business processes with instant, secure access to over 200 electronic file types including 2D/3D CAD, vector, raster, hybrid and office formats. Powerful performance, ease of use, and robust integration capabilities for leading ECM and PLM systems make the Spicer suite of Universal Viewing solutions the preferred choice for viewing, mark up, scanning, printing, and collaborative review of business content throughout the entire document lifecycle.
